Grande LONG & NARROW - 64086 Scaffold Wood

Xpressions

Xpressions - 64101 Coffee Shake

Is the new collection daring?

Yes and no. Xpressions finds a home in a very wide range of different settings, from the most austere to the very classic. These floors look just as good under a Knoll designer armchair as they do under an authentic Chesterfield.

Balterio always tries to reproduce nature in all its aspects. With Panoramic design laminate planks, the pattern of the wood runs optically from one plank to the next, giving the impression that the planks are endlessly long. Just as they should be.

INNOVATIVE TECHNIQUES & STRUCTURES

Ultra high definition & natural variety

High definition laminate radiates more precision, contrast and depth. There's more natural variety in the same décor too: no repetition in a floor of 10 m².

True to nature touch

The embossed in register process accentuates the natural wood grains and gives you the feel of a solid wood floor.

3D wood effect

3D wood effect emphasises the natural depth of the wood grains by varying in gloss level from matt to satin and silk.

Panoramic design

On laminate planks with the Panoramic design, the pattern of the wood runs optically from one plank to the next, giving the impression that the planks are endlessly long.

Chromezone

The exclusive Chromezone technology enhances the True to nature touch by giving the wood grains a vivid and radiant lustre on a matt surface.

Handscraped

The handscraped finish gives the planks a real craftsman's look, as if every plank has been made by hand.

Saw cut raw

Planks with Saw cut raw structure display a rough and authentic surface of sawn wood. This laminate looks and feels like wood marked with saw cuts.

Fine woodgrain structure

True tile / concrete structure

Brushed structure

Soft touch mat

V-GROOVES

Parquet bevel

The grooves are made in the lacquer layer, so that the pattern runs nicely in the bevel – just like parquet. The HDF board is better protected and there is less likelihood of damage caused by moisture.

V-groove

With a V-groove on the sides of the planks, your floor is hardly distinguishable from solid parquet floors.

Micro V-groove

Some collections have a subtle micro V-groove on the sides, for a refined and truly elegant parquet effect.

Random V-groove

Milled to show the irregularities of real wood, the random V-groove gives your floor more character.

Grande (1)

Laminate has never been so realistic. It's virtually impossible to distinguish Grande from genuine parquet. What's more, a Grande floor doesn't just look good, the long – wide and narrow – planks are also water-repellent. This makes Grande the first laminate floor in the Balterio range for installing in bathrooms too.

Tradition Sculpture

Tradition Sculpture reflects pure craftsmanship. This authentic collection features natural oak floors, handcrafted down to the smallest detail. The rustic and rural character is created by a rough, hand-scraped look. Saw cuts in the structure leave that slightly worn and damaged impression. This is art.

Stretto

Stretto is something unique. Certainly in terms of the format. With its narrow planks – a mere 134 mm wide – you create openness in a room. And your floor will be virtually indistinguishable from a solid wooden one. The micro V-grooves enhance the effect even more. Pure refinement. Pure style.

49.6456 X 7.5000 INCH | 4.1371 X 0.6250 FT | 10 PLANKS/PACK | 2,4022 M² = 25.8571 FT²

Senator

Senator is the ultimate all-round collection with the best price-quality ratio. A basic floor yes, but one with a stylish matt finish that performs brilliantly in both classic and modern interiors. Senator is simply high-quality laminate for a very reasonable price.

JUST GREAT VALUE

*A smooth
floor for
everyday
living*
